Derived from anhydrous ammonia, phosphoric acid, potassium hydroxide, potassium chloride, ferrous sulfate, manganese sulfate and zinc sulfate.

APPLICATION THROUGH Drip Irrigation - inject after irrigation filter.

GENERAL INFORMATION

Foloplex® contains nitrogen, available phosphate, potassium, iron, manganese and zinc. Foloplex® is non-phytotoxic when used as directed. Foloplex® will be allowed to differences in varieties, soil and environmental conditions, and should be applied under conditions of optimum plant growth. Optimum conditions are defined in adequate nutrient, moderate temperature and adequate soil moisture conditions.

CAUTION: Always check for compatibility with other products prior to use. Do not mix with conventional calcium based fertilizers. Foloplex® is not compatible with conventional products containing the salts of heavy metals.

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES OR CLOTHING. In case of contact immediately flush skin, eyes or clothing with plenty of water for at least 15 minutes.

APPLICATION:

Foloplex® is designed for soil application and for foliar use. Apply directly to soils or inject through irrigation systems where water quality is satisfactory to maintain solubility. Foloplex® may be used as a pre-emergent at 3 to 5 gallons per acre. Foliar applications should be as a dilute spray. Application rates vary by crop or situation. Mixing with irrigation water for field storage is generally not recommended. Products blendeed with irrigation water should be used immediately and not allowed for prolonged periods.

FOLIAR APPLICATION RATES

VEGETABLE AND FRUIT CROPS, FIELD AND ROW CROPS: Apply 2 to 4 quarts per acre. In aerial application use a minimum of 50 gallons of water per acre. May be applied through center pivot irrigation systems. Repeat applications may be beneficial.

SOIL APPLICATION RATES

FIELD & ROW CROPS: Apply 1 to 2 gallons per acre, in a dilute spray, or to use with irrigation sprinkler. Repeat applications may be beneficial.

FERTIGATION APPLICATION RATES

FIELD & ROW CROPS: Apply 1 to 20 gallons per acre in a surface or sub-surface band. Repeat applications may be beneficial.

FIELD & ROW CROPS, VEGETABLE & FRUIT CROPS: Apply 2 to 6 quarts per acre. In aerial applications use a minimum of 25 gallons of water per acre. Repeat applications may be beneficial.

FOLIAR APPLICATION RATES

FIELD & ROW CROPS, VEGETABLE & FRUIT CROPS: Apply 2 to 6 quarts per acre. In aerial applications use a minimum of 25 gallons of water per acre. Repeat applications may be beneficial.

APPLICATION THROUGH Drip Irrigation - inject after irrigation filter.

WARRANTY:

Since weather, crops, soil and other conditions may vary, neither Actagro®, LLC, nor the Seller makes a warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

*Mixing in instructions

Not all Actagro® products are compatible with one another or when mixed with other fertilizers and/or pesticides on the market. A small scale compatibility test is recommended prior to mixing.

APPLICATION THROUGH Drip Irrigation - inject after irrigation filter.

MIXING INSTRUCTIONS

1. Partially fill tank with water or fertilizer and start agitation.
2. Add other nutrients or pesticides if compatible.
3. Add Foloplex® to circulating tank mix.
4. Fill tank and agitate thoroughly.
