

HUMIC ACID 10%

ORGANIC GROWER SOLUTIONS

Organic Input Material

Offers Application Flexibility

Non-Phytotoxic

Contains 10% Humic Acids

Humic Acid 10% is an auxiliary soil and plant substance, which can be combined with other fertilizers or can be applied by itself. Humic Acid 10% is non-phytotoxic, when used as directed. The humic acid content has been determined using the California Department of Food and Agriculture's method. This product is approved for organic farming by the Organic Materials Review Institute, the California Department of Food and Agriculture and the Washington State Department of Agriculture.

BENEFITS OF HUMIC ACID

- Improve Soil Water Retention
- Improve Soil Structure
- Help Mitigate the Effects of Salt
- Increase CEC in the Application Zone
- Supports Beneficial Soil Microbes

APPLICATION

Humic Acid 10% can be applied to most:

- Vegetable and cucurbit crops
- Field and row crops
- Deciduous fruit and nut trees
- Grapes
- Berries
- Olives
- Avocados
- Citrus

Humic Acid 10% can be applied as a foliar, directly to the soil, or injected through irrigation systems (where water quality is satisfactory to maintain solubility).
