FIELD & ROW CROPS: Use 1 to 3 gallons per acre, not to exceed a 3% solution of Micro Booster™ to water. Repeat applications may be beneficial.

ORCHARDS & VINEYARDS, VEGETABLE & FRUIT CROPS: Use 1 to 8 quarts per acre per irrigation. Continue irrigation for a minimum of 2 hours after application to flush lines and to maximize nutrient distribution with drip and microsprinkler use. Repeat applications may be beneficial.

FERTIGATION APPLICATION RATES

FIELD & ROW CROPS, ORCHARDS & VINEYARDS, VEGETABLE & FRUIT CROPS: Use 1 to 8 quarts per acre in a minimum of 10 gallons of water per acre. Dilute or concentrate sprays use a minimum of 25 gallons of water per acre. Repeat applications may be beneficial.

FOLIAR APPLICATION RATES

FIELD & ROW CROPS: Apply 1 to 4 quarts per acre to a minimum of 1 gallon of water per acre. May be applied through center pivot irrigation system. Repeat applications may be beneficial.

SOIL APPLICATION RATES

Micro Booster™ may be applied pre-plant, as a starter, side dress, fertigated, top dressed or banded to the soil. To apply alone, dilute with water to ensure uniform application. Repeat applications may be beneficial.

VEGETABLES & FRUIT CROPS, ORCHARDS & VINEYARDS: Apply 1 to 8 quarts per acre. Metal applications use a minimum of 10 gallons of water per acre. Dilute or concentrate sprays use a minimum of 25 gallons of water per acre. Repeat applications may be beneficial.

CAUTION: If any other chemicals are to be used in the spray mixture be sure to check compatibility. Fertilization of Micro Booster™ close to harvest may leave a brown residue on the harvestable portion of the crop. Rainfall, sprinkler irrigation or high humidity should alleviate this condition.

WARNING: Causes eye irritation. May be harmful in contact with skin. Avoid release to the environment. Wear protective gloves and eye / face protection. If eye irritation persists: get medical attention. IF IN EYES: Rinse with water for 15 to 20 minutes. Remove contact lenses, if present, and continue rinsing eyes. IF ON SKIN: Wash with plenty of water for at least 15 minutes. Avoid release to the environment. Wear protective gloves and eye / face protection. If eye irritation persists: get medical attention. IF IN EYES: Rinse with water for 15 to 20 minutes. Remove contact lenses, if present, and continue rinsing eyes. IF INHALED: Move to fresh air. If not improving, seek medical attention immediately. IF SWALLOWED: Rinse mouth. Do not induce vomiting unless instructed to do so by a physician. IF INHALED: Move to fresh air. If not improving, seek medical attention immediately. IF SWALLOWED: Rinse mouth. Do not induce vomiting unless instructed to do so by a physician.

Actagro® Micro Booster™ can be applied to most vegetable and sustainable crops, field and row crops, deciduous fruit and nut trees, grapes, berries, olives, avocados and citrus. Micro Booster™ is designed for foliar application and for larval use. Apply directly to soils or inject through irrigation systems where water quality is satisfactory to maintain solubility. Field applications should be as a dilute spray. Applications may vary by crop application. Mixed with irrigation water for field storage is generally not recommended. Products blended with irrigation water should be used immediately and not stored for prolonged periods.

MIXING INSTRUCTIONS

1. Partially fill tank with water or fertilizer and start agitation.
2. Add other nutrients or pesticides if compatible.
3. Add Micro Booster™ to circulating tank mix.
4. Fill tank and agitate thoroughly.

**GENERAL INFORMATION**

Micro Booster™ will be influenced by various soil and environmental conditions and should be applied under conditions of optimum plant growth. Optimum conditions are defined as adequate humidity, moderate temperatures and adequate soil moisture. Optimum conditions for most crops generally occur during early morning or late evening hours.

CAUTION: Use Actagro® products with care. Since weather, soils, and other conditions may vary, neither Actagro®, LLC, nor the Seller make a warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES OR CLOTHING. In case of contact immediately flush skin, eyes or clothing with plenty of water for at least 15 minutes.

Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.org/metals.htm

*Not all Actagro® products are compatible with one another or when mixed with other fertilizers and/or pesticides on the market. A small scale compatibility test is recommended prior to mixing.*

**WARRANTY:** Micro Booster™ is warranted to perform as represented or recommended by Actagro®. If the product is defective, Actagro® will either repair or replace it, provided the product is returned to Actagro® within ten days of purchase and is accompanied by receipt and/or proof of purchase. ACTAGRO®, LLC and the Seller make no representations or warranties, whether oral or written, expressed or implied, concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

**ABOUT METALS**

Actagro® Micro Booster™ contains metals that are necessary for plant growth. Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.org/metals.htm
